When looking for a health plan that meets your ministry needs, you will face a multitude of plan details, terms and numbers, and it's often hard to keep them straight. At GuideStone, our goal is to equip you with the information you need to make the best decisions for your ministry.

These terms are commonly used when discussing health plan types.

- **Preferred Provider Organization (PPO) Plan:** A type of health plan that contracts with medical providers – such as hospitals and doctors – to create a network of participating providers. You pay less if you use providers that belong to the plan's network; however, you can use doctors, hospitals and providers outside of the network at an additional cost.
- **Exclusive Provider Organization (EPO) Plan:** A managed care plan where services are covered only if you go to doctors, specialists or hospitals in the plan's network (except in an emergency).
- **High Deductible Health Plan (HDHP):** A plan with a higher deductible than a traditional insurance plan because it is designed to be used with a health savings account (HSA) allowing you to pay for certain medical expenses with tax-advantaged dollars. For an HDHP to be considered qualified, it also has to conform to established federal guidelines, including minimum deductible, out-of-pocket maximums and HSA contribution limits.

Maximum out-of-pocket (medical and perscription)	\$4,750/\$7,500

Deductible: The amount you pay out-of-pocket for a covered health care service before the co-insurance takes effect. The lower the deductible, the faster you get covered at the co-insurance level.

Family Deductible: The amount your family needs to pay out-of-pocket for a covered health care service before co-insurance takes effect for the whole family. This amount needs to be met by a combination of two or more people on the plan.

Co-Pay: The fixed amount you pay for certain in-network expenses like a primary care visit and Teladoc®.

Maximum Out-Of-Pocket (MOOP): The absolute maximum you will pay under a plan, including your deductible, co-pays and prescription costs for covered services. Once you reach this limit, the plan pays 100% of claims.

Preventive Care: This includes routine procedures such as check-ups, screenings and immunizations.

Co-Insurance: The split cost between what you and the plan pay for eligible claim expenses. Here, the plan pays 80% of the claim, and you pay 20%.

See What GuideStone Members are Saying About Quantum Health

"I was so hesitant to call in today as I have no idea what I am talking about when it comes to health insurance. I had the pleasure of speaking with Kamron, and he did such an amazing job calming me down and helping me understand what I was asking. He was so excellent and he really heard my concerns and helped me out tremendously. He's a keeper for sure and did an EXCELLENT job!"

"Carolyn did such an excellent job. I felt like she listened to me, she heard my concerns, she was solutions-oriented, she researched everything thoroughly, and most of all she connected with me as an individual. It was an excellent experience, which does which doesn't happen often, and I got off the call feeling so happy with my experience! She made me feel seen and heard, and I cannot tell you how much that meant to me and made my day!"

"I wanted to leave a glowing review for Tamika. She went above and beyond to assist me with questions I had regarding my son's plan. She even called me back to provide an update and that she was able to connect with the doctor's office. She was patient, kind and so very helpful especially with these insurance things we do not understand. Thank you for having Tamika as an employee!"
