

Introducing

Care Finder™

from MyQHealth

Find high-quality, cost-effective, in-network care – all with a single search tool

New to town and need a doctor? Out of town and need a doctor? Looking for the best place to have joint surgery? For all your healthcare research and decisions, now there's only one place you need to go – and it's as close as your computer or mobile device.

Found on your MyQHealth member portal, Care Finder™ helps you find and compare healthcare providers and facilities so you can make informed choices about the care you'll receive. Checking cost and quality rankings in advance can save you hundreds or even thousands of dollars and ensure you receive the best possible care.

Find a PROVIDER

Search by provider name, facility name, ZIP code or procedure. **All search results are in-network***, meaning your insurance provider has negotiated discounted rates for members of your benefits plan.

Compare COSTS

Even in-network costs for providers and services can vary significantly. Estimated costs for providers, facilities and procedures are based on the amount health plans have typically paid on claims in your area, from the lowest cost to the highest. The "Fair Price" is the amount you can reasonably expect a medical service to cost.*

Compare QUALITY

These ratings reflect provider and facility performance across multiple criteria, including patient outcomes. Provider Quality Ratings also reflect compliance with standards of care and are updated annually.

 Facilities This Doctor May Use	<p> At or Below Fair Price</p> <p> Slightly Above Fair Price</p> <p> Highest Price</p>	<p> Highest Quality</p> <p> Average Quality</p> <p> Lowest Quality</p>
--	---	---

*You should verify a provider's network status prior to your visit, as they sometimes switch networks. While you're at it, you can ask them for an estimate of your anticipated out-of-pocket costs for the procedure.

Quickly find quality, in-network care at a reasonable price.

When it comes to choosing a provider and a facility for common services – imaging, diagnostic procedures, outpatient surgery and more – you have options. With Care Finder™, seeking them out is an easy, informative experience.

Go to Care Finder without leaving MyQHealth

1. Log on to your member portal or app
2. Go to the **My Plan** section
3. Select **Care Finder** in the menu
4. Begin your search...

Search for providers and facilities

- Search by provider name, facility name, ZIP code or procedure
- Learn which providers are accepting patients
- Find out how far away they are
- All results are in-network*

Compare cost and quality ratings

- Highest-quality, lowest-cost providers and facilities are shown first
- See a Fair Price estimate for total procedure costs
- Explore three levels of detail for each provider:
 1. Name, location, quality rating and whether they're accepting new patients
 2. Expanded view, including specialties, gender, languages spoken and procedures
 3. The Fair Price for a procedure presented along a market price spectrum

The screenshot shows the 'Refine Results' page in the Care Finder tool. On the left, there are several filter sections: Distance (with a 'Select Distance...' dropdown), Quality Ranking (with 'Highest Quality' and 'Lowest Quality' checkboxes), Accepting New Patients (with 'Yes', 'Unknown', and 'No' checkboxes), Gender (with 'Female' and 'Male' checkboxes), Languages Spoken (with 'English', 'French', 'Italian', 'Spanish', and 'Telugu' checkboxes), and Specialty (with 'Anesthesiology' and 'Cardiology' checkboxes). The main area displays a list of providers. The first provider is Stone-Smith, Abbie Marie, DO, a Hospitalist, Internal Medicine, located 5 miles away. The second is Smith, Jimmy Shaun, DO, a Pulmonary Disease, Emergency Medicine, Internal Medicine, located 7 miles away. The third is Biersmith, Michael, MD, an Internal Medicine, located 8 miles away. Each provider entry includes their name, specialty, distance, and a 'Map' icon. There are also icons for 'In-Network' status and 'Accepting New Patients'.

The screenshot shows the 'Care Finder' provider detail page for Jimmy Shaun Smith, DO. The page includes a search icon, the provider's name, specialty (Pulmonary Disease, Emergency Medicine, Internal Medicine), and a 'NEW SEARCH' button. Below this is a 'Back / Return To Results' link. The main content is organized into two tabs: 'Overview' and 'Locations'. The 'Overview' tab is active, showing the provider's address (2050 Kenny Rd, Columbus, OH 43221), phone (614-293-4925), fax (614-293-5503), and specialty. It also lists the provider's gender (Male), languages spoken (English), quality ranking (Highest Quality), in-network status (In-Network), and accepting new patients status (Accepting New Patients). The NPI number (1598717894) is also displayed.

The screenshot shows the 'Care Finder' procedure detail page for Laidlaw-Smith, Hydi Fay, DO. The page includes a search icon, the provider's name, specialty (General Surgery), and a 'NEW SEARCH' button. Below this is a 'Back / Return To Results' link. The main content is titled 'Total Procedure Price: Appendectomy'. It features a price spectrum ranging from \$12,122 to \$37,878+, with a 'Fair Price' of \$15,151 highlighted. Below the price spectrum is a section titled 'FACILITIES THAT PERFORM THIS PROCEDURE:'. This section includes a 'SORT RESULTS' dropdown and a legend for facility types: 'At or Below Fair Price' (green), 'Slightly Above Fair Price' (yellow), 'Highest Price' (red), 'Facilities This Doctor May Use' (blue), 'Highest Quality' (green circle), 'Average Quality' (yellow circle), and 'Lowest Quality' (red circle). The facilities listed are Wexner Medical Center at The Ohio State University - Hospital (8 miles) and OhioHealth Doctors Hospital - Hospital (11 miles). Each facility entry shows its name, address, cost ranking (indicated by a dollar sign), and quality ranking (indicated by a circle).

*You should verify a provider's network status prior to your visit, as they sometimes switch networks. While you're at it, you can ask them for an estimate of your anticipated out-of-pocket costs for the procedure.
